

## digital gaming signage

C-nario™ is a complete end-to-end digital signage software solution. It is an industry ‘first’ all-in-one digital signage content management platform. We can offer complete video wall solutions and LED matrix displays to show your content!

Jackpot Visualizer is our economic digital signage solution for both casinos and arcades and will accommodate the most popular features for a gaming floor. Combines Jackpot details with promotional messages and advertisements.

## Multi Screen Media Is Booming

Hello we are SIGNS4U, We R here 4U.

We are here to help you to achieve all that you would wish for in the appearance and day-to-day working of your location, whether it is a five-star international casino, a family fun arcade or any other type of location which needs illuminating, both in décor and in [jackpot] multimedia systems.

We love challenges. put us to the test. see if we can match up to what's in your mind's eye. we have a young experienced and enthusiastic team full of ideas and highly-motivated.

We have 25 years' experience in the signs and systems business. we know our stuff, whether it is a 60-metre outdoor beacon of light and color, or indoor info displays; slots progressives and bonusing or top-boxes.

Signs light up your property and help light up your profits.

Try us...you won't be disappointed.
