

Moniko

TI-TO TICKETS FOR SLOT MACHINES

**OUR COMPETITORS
ARE SAYING:**

**YOU SHOULD BUY
ONLY APPROVED
TI-TO TICKETS !**

WE AGREE !

**IN THIS NEWSLETTER YOU WILL SEE
WHY YOU SHOULD BUY
APPROVED MONIKO TITO TICKETS**

KANZAN KL69 VS KANZAKI TO-381N !!!

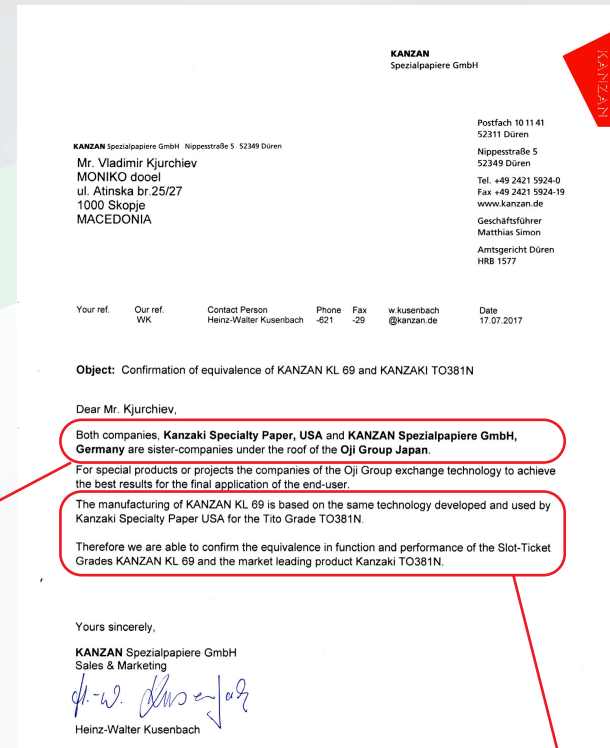

Our competitors say that they produce on Kanzaki paper TO381.

**BUT MONIKO never said that we produce tickets on Kanzaki paper
MONIKO APPROVED TICKETS ARE PRODUCED
on Kanzan KL69 paper.**

What they did not tell you is that Kanzan is a sister company (same group, same company, same owner) of the Kanzaki factory in USA.

Kanzan is producing in Germany.

So YES, There is a European producer.

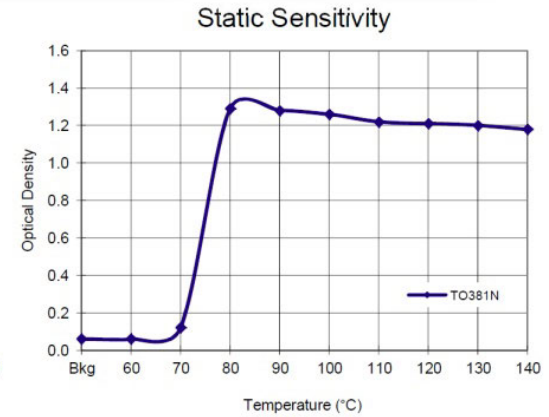

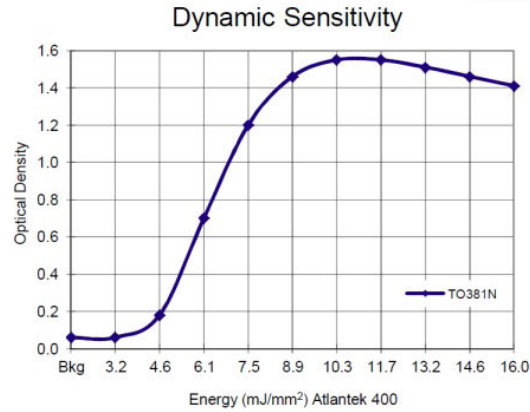

Both companies, **Kanzaki Specialty Paper, USA** and **KANZAN Spezialpapiere GmbH, Germany** are sister-companies under the roof of the **Oji Group Japan**.

The manufacturing of KANZAN KL 69 is based on the same technology developed and used by Kanzaki Specialty Paper USA for the Tito Grade TO381N.

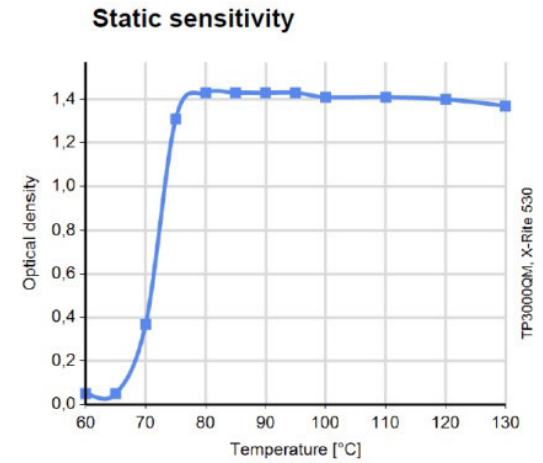

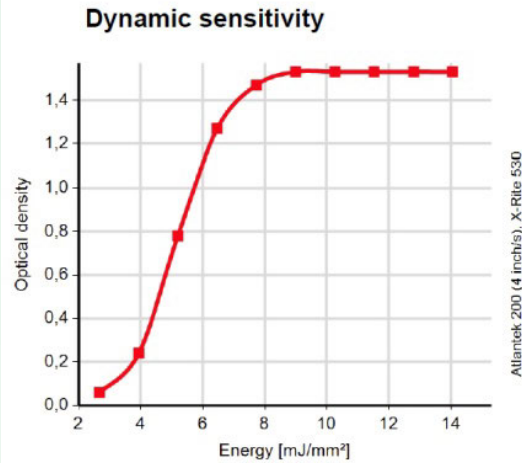

Therefore we are able to confirm the equivalence in function and performance of the Slot-Ticket Grades KANZAN KL 69 and the market leading product Kanzaki TO381N.

KANZAN KL69 MATCH THE SPECIFICATIONS !!!

KANZAKI TO381N

KANZAN KL 69

IS THE PAPER APPROVED ?

Our competitors say only Kanzaki and Appvion papers are APPROVED. But they don't say that the OEMs have tested KANZAN KL 69 and that it got all available OEM Approvals.

So When MONIKO is saying it is producing on APPROVED paper, this is the TRUTH. MONIKO is producing 100% of its tickets on Kanzan KL69 paper. This paper has been APPROVED by JCM, TRANSACT & NANOPTIX.

Nanoptix Inc. TITO Thermal Paper Specifications Doc. No. 1

Nanoptix Paycheck TITO Thermal paper specifications

This specification pertains to a thermally printed ticket used in conjunction with Ticket-in Ticket (TITO) systems. Tickets must conform to the outlined dimensions, thickness, material properties, perforation strength, and optical characteristics as described herein in order to perform properly.

Memo

To: Kanzan Spezialpapiere GmbH
From: David C. Kubajak - JCM Global
CC: ---
Date: July 9, 2015
Re: Kanzan Paper - KL 69

To Whom It May Concern:

JCM American Corporation and its wholly-owned subsidiaries (collectively "JCM") employ strict standards and requirements regarding the quality, type, and characteristics of thermal paper that is considered for use in its printing products.

JCM has from time to time used certain paper delivered to us from Kanzan Spezialpapiere GmbH which, for the particular delivery, met the required specifications for use in our printing products.

Although JCM does not certify specific suppliers for specific products, as we are not in control of the processes or product delivered by the supplier, we can represent that if Kanzan Spezialpapiere GmbH can meet the attached thermal paper specification on their KL 69 paper, the paper will function properly on all current generations of JCM and Future Logic printers.

Please contact JCM or Kanzan Spezialpapiere GmbH for additional information or clarification.

Respectfully,

David C. Kubajak

David C. Kubajak
Sr. Director of Operations
JCM American Corporation

IS MONIKO APPROVED CONVERTER ???

YES

Regarding the ticket converter approval, MONIKO is also paying a lot of attention to this matter. What our competitors don't know is that MONIKO has received the approval from Nanoptix for our according to the IGT Specification converted tickets.

Further converter approvals for MONIKO are pending.

We must mention that approvals are for the newest generation of printers.

RE: Paper Qualification: KN1 KL69 converted by Moniko tested with Nanoptix Paycheck 4 and Paycheck NextGen.

Dear Vladimir

Based on the acceptable results of Nanoptix qualification process, Nanoptix Incorporated approves the KN1 KL69 converted by Moniko for use in Paycheck 4 and Paycheck NextGen thermal slot machine Tito printers.

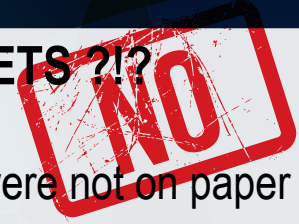

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Reece", is written over a white background.

OUR COMPETITORS SAY THEY HAVE TESTED OUR TICKETS ?!?

When our competitors say that they have tested the tickets in Kanzaki and they were not on paper according to the industry standard ?!?!?

We can only answer that **they have not tested MONIKO tickets.**

All our tickets are produced according to the strict IGT standards and recommendations.

This means also that all tickets are printed with the MONIKO name and the IGT short abbreviation KN1 for the paper quality KL 69 on the front side of the ticket.

Therefore all MONIKO tickets can be identified easily.

OUR COMPETITORS SAY THEY HAVE TESTED OUR TICKETS?!?

The result of the test has a date of 03.10.2016 and MONIKO started to produce this tickets at the end of September 2016.

The tickets tested in the KANZAKI letter, have never been supplied to those casinos by MONIKO.

The picture with not aligned marks from San Remo casino is not a MONIKO ticket, MONIKO started supplying San Remo Casino at the end of March 2017 and they have been very satisfied with the quality of our tickets.

20 Cummings Street, Ware, MA 01082-2002

October 3, 2016

Cashless Slot Ticket Evaluation:

Sample 1: Atari Casino

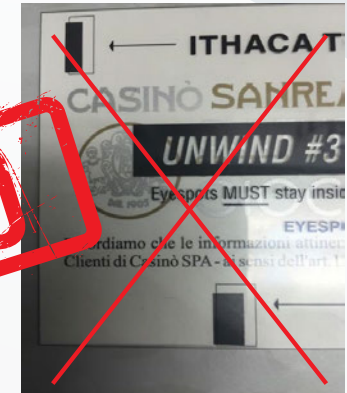

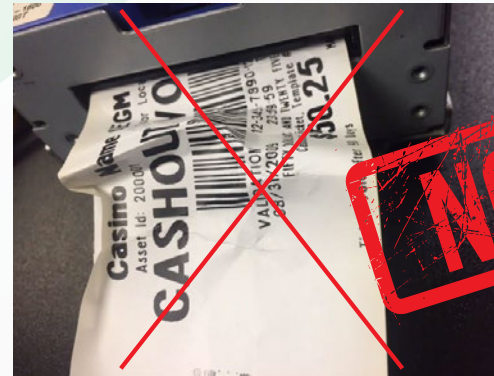

Caliper Average: 3.89 mils

Optimized Dynamic Sensitivity: 1.11

By our test method, the sample contains BPA.

Non-Overcoated

During our imaging test, we noted over burn in the higher dynamic rage. this could lead to potential residue buildup if the printers are not maintained.

THESE TICKETS
ARE NOT PRODUCED BY MONIKO!!!

MONIKO has been slandered with damaging and untruthful information and has taken legal steps against the companies spreading this wrongful information in order to preserve the reputation of our company and clients.

NEW AGE !

Gone are the times when you didn't have many choices for your ticket suppliers. We have entered in the new era, with new approved converter with much more competition choices for the benefit of all your casinos.

So finally, when our competitors say buy only APPROVED tickets, WE definitely AGREE.

BUY MONIKO APPROVED TICKETS. WHY?

WE ARE THE FIRST APPROVED TITO TICKETS CONVERTER IN EUROPE!

- WE HAVE HIGHEST QUALITY IGT STANDARD.**
- NO CURLING OF THE TICKETS IN PRINTER**
- EXACT TOP-OF-FORM MARKS BY IGT STANDARDS**
- TICKET BURST ELECTRONICALLY CONTROLLED AND ALWAYS IN WITHIN IGT STANDARDS**
- NO DUST IN THE PRINTERS AND SCANNERS (TESTED)**
- EXACT THICKNESS OF PAPER**
- NO ADDITIONAL SERVICE & MAINTENANCE REQUIRED ON PRINTERS.**

ALL TICKETS ARE SHRINK WRAPPED FOR PROTECTION

NOT ALL APPROVED SOURCES HAVE THIS.

NEW AGE !

SHORT PRODUCTION TIME 5-7 DAYS FROM ORDER, SO NO MORE WAITING 8-12 WEEKS DELIVERY.
WE CREATE ANNUAL AGREEMENTS, AND WE HOLD THE STOCK FOR YOU AND DELIVER WHEN YOU NEED IT.

WE HAVE BLANK TICKETS ON STOCK.

SO FEEL FREE TO ORDER AND BUY MONIKO APPROVED TICKETS.
