

ultra thin gaming signage

It will transform every VLT, casino or arcade and it is exclusive to Signs4U because we developed a cost-effective production process, the benefits of which we can transfer to our customers. It is light-weight and has an ergonomic ultra-thin design and the combinations of colors within the scope of paints and laminates are almost endless.

Double faced ultra slim sign

- Single faced, wall or leg mounted.
- Maintenance free
- Easy installation
- Vesa mounted LED screen (or others upon request)
- Low energy consumption
- Animated LED lights around the display and graphic panels
- Replaceable and customized printed graphic themes

Hello we are SIGNS4U, We R here 4U.

We are here to help you to achieve all that you would wish for in the appearance and day-to-day working of your location, whether it is a five-star international casino, a family fun arcade or any other type of location which needs illuminating, both in décor and in [jackpot] multimedia systems.

We love challenges. put us to the test. see if we can match up to what's in your mind's eye. we have a young experienced and enthusiastic team full of ideas and highly-motivated.

We have 25 years' experience in the signs and systems business. we know our stuff, whether it is a 60-metre outdoor beacon of light and color, or indoor info displays; slots progressives and bonusing or top-boxes.

Signs light up your property and help light up your profits.

Try us...you won't be disappointed.
