

MGR
CASINO CHAIRS

Handmade in Italy

Handcraft in Italy

Stools for slot machines and casinos have to be long-lasting in spite of a continuing and demanding use.

Like cars in crash-test, our stools undergo endurance and reliability tests.

We test our products for long lasting period in order to guarantee the best endurance ever.

Our attention to the “tested and proven” process has given us a worldwide superior quality reputation

WE ARE PRESENT AT

Nichelatura
Black Nickel Finish

Cromatura
Green Chrome

Verniciatura
Powder Coating

Ottonatura
Brassing

Thanks to the best materials, our finishing technology and the quality of our job, we can offer a wide choice of products that guarantee a comfortable position and endurance.
Every feature will show the quality of our furnishing during the time.

Our customization lets us express your creativity and brand through the stool, which becomes a privileged element.

We can do many different things: study an idea, create the graphic design, use high-technological electronic embroidery machines, realize digital printing with professional plotters for tissues or silk-screen printing.

Customer Oriented: We always strive to provide to our customers seating solutions tailored to their specific needs, from simple chair options variation to conceptualizing new products and design. Our R&D team can develop your custom completely original seat or revise our existing model.

Each customized chair undergoes rigorous testing to ensure that the design meets our high manufacturing standards. As all our products, your custom products are produced at the MGR facilities, 100% hand-made in Italy.
